4. **Cybersecurity Best Practices – Safeguarding Your Network and Building Systems**
 - Robert Lane (Robert H. Lane & Associates Inc.) & Brad Bonfiglio (Schneider Electric)

Brad Bonfiglio
National Director, Consultant
Solution Architects

Description: Cybersecurity breaches in building control systems or sensitive data can result in significant regulatory penalties, disrupt core operations, and damage business reputations, eroding consumer, employee, and investor trust. To harness the full potential of Smart Building technologies while mitigating cybersecurity risks, it is essential for building owners, operators, and occupants to adopt a new approach to designing and managing intelligent building control systems.

Brad Bonfiglio, National Director, Consultant Solution Architects at Schneider Electric, explores a practical, standardized framework to secure both existing and new building control systems, empowering IoT-connected Smart Buildings to thrive in a secure environment.

5. **ASHB [Podcast](#)** – Chris Larry (Exp US Services Inc.)
